Unfortunately

Education, practice of knowledge, life, empowerment were absent during whole COVID period. However in any way we were trying to push our IIMC driving system to keep up our school children, mothers in education and in training to learn life and community.

IIMC medical service is Unique & complete with its public health, Preventive Medicine, Primary Health Care and our referral service for Secondary & Tertiary medical care to cover up better medical services.

Education of children, mothers and family is irreplaceable, we do our best to inject

education in our Community in multiple approaches including conventional

school constructions and even with birth spacing & birth controlling among poor families.

Children will go to school and mothers are in economical program with microcredit project and other social empowerment programs. Women

group will be covered up with social empowerment projects to empower Socially, Culturally & Intellectually.

*Women Peace Council*

Medical program covering children & mothers health, malnutrition, birth spacing, Health education and Health Promotion – Healthy mother, Healthy child and put the children in school & education of mothers are social empowerment with the four dimensional support to the rural backward community,

empowering them

Medically, Educationally, Economically and Socio-culturally.
