

Monsoon Catastrophe in Bengal

Kolkata & southern part of Bengal suffering with heavy Torrential Monsoon Rain water. Most of the IIMC centers and villages around us are under water and people are water locked.

COVID, Lock Down, Cyclone and now Torrential Monsoon Rain Water – one after one catastrophe – very unfortunate situation, in any way we all IIMC volunteers are active and trying to organise to manage the situation.

We shall overcome the challenges and shall continue to help everyone around us.

Dr. Sujit
IIMC – Mission
